Kennebec River

Big Waves — Big Whitewater — Big Fun!
Rolling Down Maine's Most Popular River

Our Troop's experience with NCR was AWESOME! Right from the start, the NCR staff provided great communication from booking the trip, the camping experience, along with some local Maine information. We could not have more pleased. The guides were outstanding; friendly, knowledgeable, and fun. Our scouts and adult leaders had an absolute blast and would not hesitate to return in the future.

NCR rocks!

Penobscot River

The Most Challenging Whitewater in New England

The Penobscot is the most challenging river in Maine and one of the best in the United States. You will experience more technical rapids, exposed rocks, steeper gradients and awesome whitewater. The river is set in the shadow of mile high Mt. Katahdin and on the perimeter of Baxter State Park. Eagle, osprey, moose and bear sightings are not uncommon, while the river abounds with salmon and trout.

Trips offered on the Penobscot:

FULL RIVER TRIP – Run the more moderate Lower Section in the morning and the more challenging Upper Gorge in the afternoon, this trip runs every rapid on the river and floats by mile high Mt. Katahdin. Minimum age is 14 years.

ULTIMATE – Run the Upper Gorge two times – this trip focuses on the Class 5 Upper Section and does not run the Lower Section. Minimum age is 16 years.

PENOBSCOT TWO DAY TRIP – Treat yourself to one of our best trips. Raft the Full River Trip on day one and the Ultimate on day two. Each day begins and ends at our Penobscot River base, camping and lodging is available on site or through local establishments. Minimum age is 16 years.

We would like to take a moment to thank you for a wonderful trip, and breathtaking ride. We took the full river trip down the Penobscot in August. Absolutely incredible! The staff were, to a person, helpful, energetic, and entertaining. Our guide Karyn was fantastic. She was extremely knowledgeable and fun. The river itself was more than we could have hoped for. Thanks to Karyn's skills, and our enthusiasm, we had the thrill of a lifetime. We will certainly be telling our friends about the wonderful time we had and urge them to go. We are looking forward to our next trip. We'll see you then. Way to go NCR!!!!

Multi-River Trips

Twice the Fun and a Great Value

My son and I stayed at your facility July 9th - July 14th (cabin #5). May I compliment you on your staff, cabins, and organization of white water raft trips.

Monday July 10th we were on the Kennebec with our guide Zach. He was warm, professional and social. The trip was on the 8000 turbine test day, lucky us since I booked this last February.

Wednesday we made the drive to the Penobscot. The directions given to us were perfect. Our guide on that trip was Mike S. He was knowledgeable, professional, and enthusiastic.

Tuesday and Thursday we rode our atv's from our doorstep to the wonderful trails. Also thank you to Pam giving me arrival directions and Wavetrain for his presentation of details in preparation to raft. These four individuals represent you outfit wonderfully.

Thank you for a wonderful vacation, The cabins were spotless, and provided much comfort. We will definitely vacation with you again, but will pass along the word and bring friends. My goal is to rent the last 3 cabins for an ATV reunion.

ATV in Maine with North Country Rivers - ATV rentals, Cabin Rentals, Direct Trail Access, Extensive Trail System, Restaurant & Pub.

North Country Rivers' base complex is located in the upper Kennebec Valley Region of Maine. Known for having "the best ATV trail system in the east". The region also contains some of the most beautiful and pristine wilderness in the US.

Best of all, our base complex is located "on" Maine's ATV Trail System. This system is made up of hundreds of miles of designated trails - stretching to all the way to Canada.

From the North Country Rivers base complex in Bingham, Maine, we are on the Maine ATV trail system. This portion extends north to the Forks and Jackman (and on to Canada), west to Rangeley Lakes, and northeast to Moosehead Lake (and Katahdin). Moose Safari

Wildlife Tours

Experience a Moose Safari with North Country Rivers. Let our Registered Maine Guides take you on a memorable wildlife tour! See Moose, Deer, Bear, Eagles, and Osprey in their natural habitat. Be sure to bring your camera and video camera!

We offer guided Moose Safari trips at our Bingham, Maine base from May – October. Moose Safaris meet in the early evening when wildlife is most active, so that our professional guides take you on an adventure you will remember for a lifetime.

North Country Rivers is an outstanding outfitter and goes above and beyond to make the best white water rafting experience. My family and I have been to Bingham, Maine three times in the last two summers because their experience on the river surpasses all other outfitters. The guides are extremely welcoming, experienced, and knowledgeable! We have rafted all three rivers, the Kennebec, Penobscot, and the Dead and each one is worth rafting again and again with the guides at North Country! Looking forward to adding a Moose Safari and ATV Trip to our 2007 Maine vacation with North Country Rivers.

THE MOOSE (ALCES ALCES)

Moose roam in abundance in Maine. They are also BIG animals. An adult moose, averages 1000 pounds and stands 6 feet at its shoulder (the largest wild animal in North America). Moose have keen senses of smell and hearing, but they're also near-sighted. Their front legs are longer than their hind legs, allowing them to jump over fallen trees, slash, and other debris. Moose, like deer, lack a set of upper incisors. This requires them to strip off "browse" and bark. Bulls and cows have different coloration patterns. Bulls have a dark brown or black muzzle, while the cows face is light brown. Cows also have a white patch of fur just beneath their tail.

Only bulls grow antlers. Antler growth begins in March or April and is completed by August or September when the velvet is shed. Antlers are dropped starting in December; young bulls may retain their antlers into early spring. Yearlings develop a spike or fork; adults develop antlers that may weigh up to 60 pounds with wide sweeping palms with many long tines. The bell the flap of skin and long hair that hangs from the throat, is more pronounced in adult bulls than in cows or immature bulls.

WHERE TO SEE MOOSE

Cows (female moose) prefer to keep their calves near water as an escape route. Ponds are used by both sexes to escape from moose flies and other pesky insects. "Moose wallows" form in regularly wet areas on the side of roads where road salt accumulates. Moose visit these areas to drink, and satisfy their salt requirements.

WHEN TO SEE MOOSE

Moose are most active in the early morning and early evening hours. Just before sunset moose will roam in search of saplings or salt. Moose are vegetarians and often seek out the young saplings.

PHOTOGRAPHING MOOSE

If you do see moose, use a zoom or telephoto lens to bring the creature up close. Do not try to walk up to a moose.
